

eSID2 Favorites Configuration (Software 2.11.x)

extended Saab Information Display (eSID)
for new generation Saab 9-3 (MY2007-2014)

Introduction

Favorite display views are configured in “eSID Settings” and are performed by selecting a display view for each of the five favorites. If Custom View 1 or Custom View 2 is used as favorite view, the user also needs to select which three parameters that should be displayed in that view.

Note! This configuration is only for eSID2 software 2.11.x and newer
