Introduction

eSID 03-06 Generation1 was released in autumn 2017 (please see eSID 03-06 User Guide for all its features) and during development work, a number of improvements were identified but couldn't be solved at that time. The solution was eSID 03-06 Gen2 that was released in winter 2018.

However, the remaining stock of components from eSID 03-06 Gen1 will be sold out as “eSID 03-06 Lite” to a reduced price and consists only of the eSID-HPD unit with modified software and no unit in the OBD-connector (eSID-GW).

eSID 03-06 Lite

Differences between eSID 03-06 Gen1, Gen2 and Lite

Function	Gen1	Gen2	Lite	Function	Gen1	Gen2	Lite
Momentary Fuel	X	X	X	Tire Pressure		X	
Fuel Average	X	X	X	Tire Temperature		X	
Fuel (this cycle)	X	X	X	Crank Voltage	X	X	X
Fuel (total)	X	X	X	Battery Voltage	X	X	X
Torque/Power/Airmass/Boost	X	X		Ambient Temperature	X	X	X
Lambda/AFR ¹⁾		X		Selectable Wiper interval	X	X	
Knock ¹⁾		X		WelcomeMessage on Start	X	X	X
Misfire ¹⁾		X		Welcome Icon on Start	X	X	X
Engine Oil Pressure ¹⁾		X		Aut. Foglight on Park	X	X	
Fuel Rail Pressure ¹⁾		X		Aut. Foglight on Full Beam	X	X	
Torque + Torque Max	X	X		Three Blink	X	X	X
Power + Power Max	X	X		Brake Distance/Time	X	X	
Engine Coolant Temp	X	X		Drive Time	X	X	X
Intake Air Temp	X	X		Multiple Languages		X	
Boost Pressure	X	X		Unlock Light		X	X
Airmass	X	X		Automatic Mirror Folding		X	X
Ethanol Blend	X	X		Read/Clear Faultcodes	X	X	
Automatic Gearbox Temp.	X	X		5 Favorite Functions	X	X	X
DPF Regeneration Status	X	X		4 Selectable Custom Func.		X	
Gear Indication Aut. Gearbox	X	X	X	Distance/Fuel Correction	X	X	X
AC Pressure	X	X	X	Selectable Welcome Msg	X	X	X
Distance (this cycle)	X	X	X	Metric/Imperial/US Units	X	X	X
Distance (total)	X	X	X	Autostart	X	X	X
Acceleration	X	X	X	Customizable 2 Value Disp.	X	X	X

1) Not all engine variants, see User Guide

Installation

Four cables must be installed behind the dashboard, see installation instructions:

http://www.esid.se/manuals/eSID_03-06_Installation_Manual.pdf

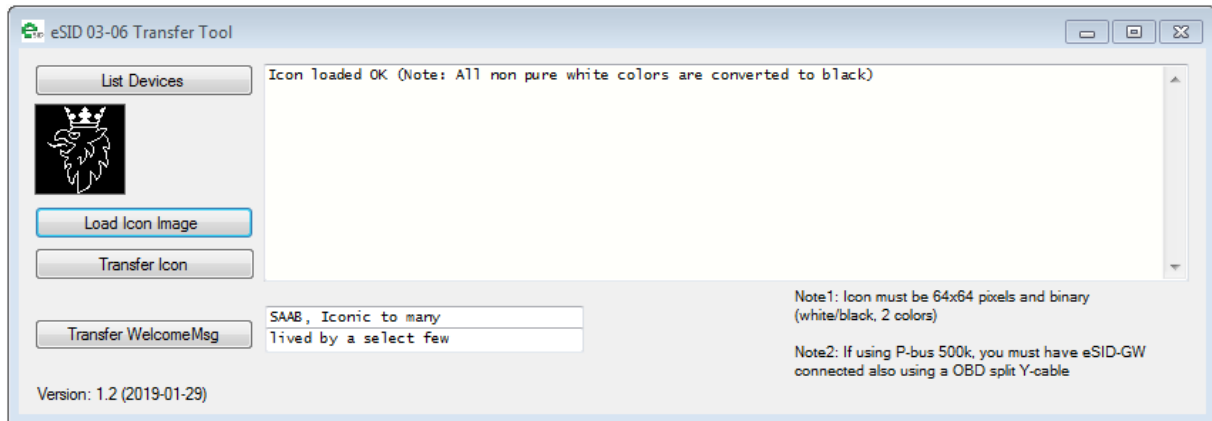

Compatibility

Lite has the same limitations as eSID0306 Gen1, meaning its working on ICM1 but is not recommended as it is not possible to change volume while eSID is active.

	eSID 03-06 Gen1	eSID 03-06 Gen2
ICM1 	 See User Guide	
ICM2 		
ICM3 		

Welcome Icon

The Welcome Icon and message is displayed when entering the car after it has been locked. This icon can be modified yourself using a CAN-bus interface (Lawicel CANUSB + J2534 Devices (with CAN protocol) are supported).

Example:

How to order?

Only a limited number of sets will be sold (approx. 70) but you can mail already to saab.esid@gmail.com to reserve. (Only mail reservation, not Facebook/Messenger).

eSID 03-06 Lite will only be sold directly from developer and if Icon is sent on mail, it can be pre-programmed before shipment. MUST be 64x64 pixels bitmap with only black/white (2 colors. See above). Use the tool above to verify its compatibility. Note! All reservations will be asked for confirmation (and payment) once the units are ready, no need to send any Icon until this time.

Availability

It is expected to be ready in April 2019.

Price

EU: 800 SEK (including tax) + shipping 140 SEK

RoW: 640 SEK (excluding tax) + shipping 140 SEK
